Activities and programs
 for all ages and groups.

Enjoy our daytime and
 evening programs!

COMMUNITY ASTRONOMY

The H.R. MacMillan Space Centre can bring Astronomy to you! Our resident astronomers will use powerful Space Centre portable telescopes to present a guided view of the seasonal night sky. Choose from two programs that incorporates hands-on star gazing led by friendly and knowledgeable staff.

STELLAR ASTRONOMY

Look through a large telescope, participate in an illustrated discussion on the Solar System or the birth of galaxies. Through this program, one of our astronomers brings up-to-date astronomical information and state-of-the-art telescopes to your classroom or special event. Available year-round, rain or shine.

MATH IN ASTRONOMY

Look at the giants in the history of astronomy: Galileo, Newton, Einstein, Hawking. It's no surprise that these astronomers are also mathematicians, for mathematics is the foundation of today's astronomical discoveries. In this interactive and hands-on presentation suitable for "math enrichment activities" our astronomer comes to demonstrate how astronomers of the past and present use mathematics to solve out-of-this-World problems.

COMMUNITY ASTRONOMY SUMMER TOUR

For over two decades the Space Centre has been interpreting the night sky to star gazers in the communities around BC. Once again our traveling classroom will be hitting the road and visiting BC parks and campgrounds throughout July & August. To find out if we'll be stopping near your community visit us at www.spacecentre.ca.

Payment

\$175.00 for a 1.5 hour session, plus mileage. Full payment is required at the time of booking your program. Payment methods accepted are Visa, MasterCard or Cheque. Cheques should be made payable to the H.R. MacMillan Space Centre Society.

Cancellation Policy

Cancellation must be received by the bookings office **in writing** by fax 604-738-5086 or email bookings@hrmacmillanspacecentre.com **7 days prior** to your program or a cancellation fee of \$75 will apply. A confirmation will be sent when the cancellation has been processed.

Misc.

To protect our equipment, if the weather is inclement all telescopes must remain indoors; no viewing will take place. We will come prepared for an indoor talk. Please have a large tent (with electrical power available) or other suitable room ready.

For more *information* on our programs or to *book*, please call **604.738.7827 ext. 241**
